Unfortunately this is a common issue for this model of Cadillac. The popular 2000 and 2002 Cadillac DeVilles are prime casualties, with the engine tending to overheat due to a leaking head gasket. Alternatively, a water pump leak could be preventing your coolant circulating freely through your engine. Either way, if not identified and fixed quickly this overheating may cause the cylinder head to expand  resulting in damage to the engine block.

Common Cadillac Engine Problems And How To Fix Them | K-Seal®

The failures of the head gasket in the Northstar engines caused the engines to run very hot and overheat while driving, which in turn, made the problem worse and get worse faster than it normally would have. Repairs for this issue are especially expensive and at the high end of the price spectrum, since the engine will have to be removed from the chassis to do the repair, showing how Northstar engines can be a bad choice.

Northstar Engine  Good or Bad? What You Need To Know

Unfortunately Northstar engine head gasket failures are not limited to the 96-99 model years. Those years are the worst but form my experience just about all Northstar engines are susceptible to head gaskets failures, most commonly after the engine has been overheated due to some other cooling system failure.

Some common Northstar engine problems include head gasket failures, excessive oil consumption, knocking or pinging, oil leaks and no oil pressure. Although most of these issues are easy to resolve, Northstar engines are very expensive to repair, and preventative maintenance is critical. Blown head gaskets are one of the most common problems associated with Northstar engines.

What Are Some Common Northstar Engine Problems?

Check your thermostat. The thermostat gauges the temperature of the engine to control the flow of coolant into the cylinder block and radiator. A faulty thermostat might not open, meaning coolant won't flow. This in turn will cause the engine to overheat. Check the thermostat by starting your engine and letting it idle for a few minutes.
