Messages, Signs, and Meanings can be used directly in introductory courses in semiotics, communications, media, or culture studies. Additionally, it can be used as a complementary or supplementary text in courses dealing with cognate areas of investigation (psychology, mythology, education, literary studies, anthropology, linguistics). The text builds upon what readers already know intuitively about signs, and then leads them to think critically about the world in which they live - a world saturated with images of all kinds that a basic knowledge of semiotics can help filter and deconstruct. The text also provides opportunities for readers to do "hands-on" semiotics through the exercises and questions for discussion that accompany each chapter. Biographical sketches of the major figures in the field are also included, as is a convenient glossary of technical terms. The overall plan of the book is to illustrate how message-making and meaning-making can be studied from the specific vantage point of the discipline of semiotics. This third edition also includes updated discussions of information technology throughout, focusing especially on how meanings are now negotiated through such channels as websites, chat rooms, and instant messages.

Shadow is everything in us we can't see--everything we are not conscious of. Our Shadow self monitors hundreds of thousands of inputs from the world and our body/mind systems, processes the information, and constantly sends constructive and destructive messages into our conscious awareness in the forms of sensations, feelings, impulses, stories, and thoughts. This Shadow material is generated in less than a tenth of a second, and our conscious selves become more or less aware of it after one or two seconds, leaving our conscious awareness always one step behind the non-conscious flood of Shadow material. Personal development is largely growth of our Shadow selves--our adaptive unconscious in which resides our deepest senses of self, morality, intimacy, vulnerability, and spirituality. Shadow Light offers a wealth of research, ideas, and practices to help us grow our Shadow selves and accelerate personal evolution.

Trehan offers specific strategies and frameworks for reframing the HR professional's understanding of their role within the company, including viewing the corporation not from the HR fishbowl, but rather from the vantage point of the CEO's office."--Provided by publisher.

Produced for only one year in the '70s, Blythe is a moony waif of a doll coveted by a growing group of devoted fans. Photographer Gina Garan fell to Blythe's charms and unusual looks years ago and has shot her in settings around the world, from Greece to Soho to Hooters. Hilarious, mesmerizing, and just a little spooky, This Is Blythe is the result of Garan's offbeat passion and a photography book like no other. Here's mod Blythe pacing through an art gallery; a pensive Blythe in a tiny blue fur parka, the sun flaring orange behind her; Blythe emerging from a block of ice. Is that Blythe telling her Christmas wishes to Santa Claus? Like stills for a film that hasn't happened (yet?), these undeniably beautiful photographs create an entire world from each flawless frame. A no-explanation-necessary gift for that special someone, This Is Blythe will enchant fans of witty photography and pop culture with a taste for the unexpected.
