This 90-minute section is
composed of 35 questions
designed to test your

SCORING THE EXAM The multiple-choice section of the exam is scored by crediting each correct

Answer with one point and deducting one-fourth of a point for each incorrect answer. Unanswered questions receive neither credit nor deduction. The free-response questions are graded by readers chosen from around

of the problem. The
communication criteria
include an explanation of
what was done and why, along

never too early to start

will have to sharpen your

procrastinate! Cramming is

alleviate your test-taking
anxieties. Listed below are
ways to help yourself become
accustomed to the AP exam,
some of which may also be
applied to other
standardized tests. Become

comfortable with the format of the AP Examination in Statistics. When you are practicing to take the exam(s), simulate the conditions under which you will be taking the actual test(s). You should practice

calm and pace yourself.
After simulating the test

will boost your chances of
doing well, and you will be
able to sit down for the

Familiarizing yourself with
the directions and format of
the different test sections
will not only save you time,
