The witchfinder stood on the edge of the square at some distance from the burning stake, savouring his moment of triumph. He saw those witches fly. Did the crowds notice? No! Elspeth, her beauty melting before their eyes as if she were a fragrant candle, charmed them. But Matthew saw. He knew Elspeth survived. Wherever she is, he will find her. He will hunt her down, and one will die. Their soul cast down. It is his solemn vow. He will not suffer a witch to

live. She rose with the hot swirling smoke, and tumbled through the centuries, from the clear cool air. All Hallows' Eve looms. A special day when the veil lifts and Elspeth has organised a party . . . A bewitchingly dark fairy tale set in the seventeenth and twenty-first centuries, Somerset.

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Advances in child passenger safety Child Occupant Protection in Motor Vehicle Crashes presents a collection of research into the advancement of safety measures to keep child passengers safe. Seeking a deeper understanding of children's' biochemical responses and tolerance limits, the work presented here aims to find solutions to persistent problems including out-of-position child occupants and complex pediatric injuries. Featuring the latest data from laboratory child restraint system testing, this book provides insight to guide community education and future research.

This wise and funny book presents a revolutionary yet highly practical approach to childcare: leave them alone. "The Idle Parent came as a huge relief to the whole family. Suddenly, it was okay to leave the kids to sort it out among themselves. Suddenly, it was okay to be responsibly lazy. This is the most counterintuitive but most helpful and consoling child-raising manual I've yet read."--Alain de Botton, author of *The Pleasures and Sorrows of Work* and *The Consolations of Philosophy* "The most easy-to-follow-without-being-made-to-feel-inadequate parenting manifesto ever written . . . A godsend to parents."--*The Sunday Times* "Add liberal doses of music, jovial company and deep woods to play in--all central to the idle, not to say Taoist, life--and you have a recipe for bright, happy people with need of neither television nor shrink. Who could ask for more?"--*The Evening Standard* In *The Idle Parent*, the author of *The Freedom Manifesto* and *How to Be Idle* applies his trademark left-of-center theories of idleness to what can be one of the thorniest aspects of adult life: parenting. Many parents today spend a whole lot of time worrying and wondering--frantically "helicoptering" over their children with the hope that they might somehow keep (or make?) them flawless. But where is this approach to childcare getting us? According to Hodgkinson, in our quest to give our kids everything, we fail to give them the two things they need most: the space and time to grow up self-reliant, confident, happy, and free. In this smart and hilarious book, Hodgkinson urges parents to stop worrying and instead start nurturing the natural instincts toward creativity and independence that are found in every child. And the great irony: in doing so, we will find ourselves becoming

happier and better parents.

Tatum Everley is a freshman at Western Michigan University. Due to an emotionally and psychologically abusive past relationship, Tate struggles from Complex-Post Traumatic Stress Disorder. She has been working on controlling her symptoms and flashbacks, but when she meets Axel Burne at a fraternity party, who is notorious for sleeping around and getting into fights, she tries her best to dodge the bullet. Axel starts to become intrigued by Tate, but she's better off choosing Lucas- the sweet guy who has been trying to take her out since orientation. But even though Lucas is the better option, Axel keeps reappearing. Tate continues to try to stay away from him, but it starts becoming harder to, and as she gets closer to him, things start to get way out of hand. If Tate wants her happy ending and her sanity intact, then she has to push through the hardships and maintain control over her disorder.
