Presenting a nuanced story of women, migration, community, industry, and civic life at the turn of the twentieth century, Carol Lynn McKibben's *Beyond Cannery Row* analyzes the processes of migration and settlement of Sicilian fishers from three villages in Western Sicily to Monterey, California--and sometimes back again. McKibben's analysis of gender and gender

roles shows that it was the women in this community who had the insight, the power, and the purpose to respond and even prosper amid changing economic conditions. Vividly evoking the immigrants' everyday experiences through first-person accounts and detailed description, McKibben demonstrates that the cannery work done by Sicilian immigrant women was crucial in terms of the identity formation and community development. These changes allowed their families to survive the challenges of political conflicts over citizenship in World War II and intermarriage with outsiders throughout the migration experience. The women formed voluntary associations and celebrated festas that effectively linked them with each other and with their home villages in Sicily. Continuous migration created a strong sense of transnationalism among Sicilians in Monterey, which has enabled them to continue as a viable ethnic community today.

Presents fifty of the true accounts President Thomas S. Monson has shared over the years.

Inspirational address to women highlights five things they should never forget about their divine relationship with God: forget not to be patient with yourself; forget not the difference between a good sacrifice and a foolish sacrifice; forget not to be happy now; forget not the "why" of the gospel; and forget not that the Lord loves you.

Helen Keller had absolutely no hearing or eyesight from the age of two, but became one of the most inspiring and well known people to have ever lived. For a number of years she functioned, in her words, simply as "an unconscious clod of earth." Then quite suddenly, she experienced the impact of "another mind" within her own. Despite not knowing where it came from or how it got there, she awoke to a new awareness of being able to talk and listen with her hands. She learned to read and write, wrote at least ten books, and attended college. Her religion developed from living deeply within her spiritual self, cut off from normal sensation, and spending her life on a spiritual plane. She incorporated her own experiences with the teachings of Emanuel Swedenborg, a mystic born in 1688, and the Swedenborgian Church. Swedenborg, like Keller, had experienced other realms of spirit and transmitted deeper teachings that Helen saw with great clarity. She wrote this book after receiving many requests for her to describe her religious beliefs.

turning the key, he will transform his ordinary plastic toy into a real live man from an altogether different time and place! Omri and the tiny warrior called Little Bear could hardly be more different, yet soon the two forge a very special friendship. Will Omri be able to keep Little Bear without anyone finding out and taking his new friend away?
