expressions. At this level, the focus of the mathematics program should be on proportionality, perhaps the most important connecting idea in the entire pre-K–12 mathematics curriculum.

~~A Journey in Algebraic Thinking—
National Council of ...~~

Access Free Math Expressions Developing

Bahr emphasizes that this kind of thinking can be practiced with number sentences such as: $58 - 27 = 59 - r$ where students solve for r . These kinds of math tasks require students to explain and justify their conjectures.

Symbolic Representation of Mathematical Ideas: Students need to

Access Free Math Expressions Developing

learn to use equations to communicate relationships between numbers. However, it is crucial that they understand the meaning behind the symbols (i.e. variables, equal sign, etc.).
