**NCLE Exam Preparation Course Book with Practice Tests**

The National Contact Lens Examiners has created an exam to assess the optician's understanding of modern standards of lens practice. The NCLE categorizes contact lens dispensing tasks into 5 broad groups. In general, an optician should be able to prefit and assess contact lenses, evaluate diagnostic fit, dispense lenses and educate clients, conduct follow-up clinic visits, and perform administrative tasks.

The original Ophthalmic Dispensing Review (ODR) that was originally published by the American Board of Opticianry and later placed with the National Academy of Opticianry included questions and answers on contact lenses. Over the years, there was a separation of study materials, and contact lens questions were dropped from the ODR.

CLRE Contact Lens Registry Exam Study Guide CLRE or contact lens registry exam is conducted by NCLE (National Contact Lens Examiners). This organization accredits the candidate to practice for 3 years for working and dispensing with contact lens. The person once verified and licensed by NCLE gains credibility for next three years.

**CLRE Contact Lens Registry Exam Study Guide**

The NCLE Examination or the National Contact Lens examination is a multiple choice exam that tests your knowledge of the use of contact lenses. Most states will require the "written" NCLE and a practical exam as well for you to practice as a contact lens dispenser. You can learn more at: ABO - NCLE

**NCLE Examination** **---** **OpticianWorks Online Optician Training**

The ABO exam is called the National Opticianry Competency Exam (NOCE). The NCLE exam is called the Contact Lens Registry Examination (CLRE). Each exam includes 125 multiple-choice questions, and two-and-a-half hours are given for exam completion. The NOCE exam is broken down as follows:

**Optician Tests**

The CLRE exam is broken down as follows: - Lens dispensing, patient education and delivery (29%) - Diagnostic fit and evaluation through assessment of fit and comfort (25%) - Follow-up visits, including assessing fit, visual acuity and patient response (21%) - Prefit, preparation and evaluation through measurement, patient interview and history (16%) - Administration, including lens inventory, hygiene control and ethical and legal guidelines (9%).
