This is a phenomenally detailed book which covers the car from bumper to bumper. Every detail of important repair and maintenance jobs is covered. Covers all 'Mk1' (cars with pop-up headlights) 1.8-litre models 1994-98; the only aftermarket workshop manual available for the MX-5; written in an easy to use, friendly style; step-by-step procedures supported by hundreds of photos & illustrations; covers all aspects of maintenance and repair; and applies equally to Eunos Roadster (Japanese market model) and Mazda Miata (US market model).

Rod set out to create a new kind of owner's workshop manual--friendly, easy to understand, yet more detailed than any other manual: this book is the result, Rod stripped down an MX-5 ('Miata' USA/'Eunos' Japan) in a domestic garage using ordinary tools and, in the process, took over 1500 step-by-step photographs. The result is a superbly detailed text which passes on to the reader every detail of important jobs, including how problems can be overcome without resorting to special tools.

But rather than staking mining claims or establishing homesteads, these new pioneers are on the frontier of an emerging science: marijuana as treatment for various debilitating conditions. This book contains personal accounts from doctors, researchers, and patients--self-

proclaimed "refugees" seeking treatment unavailable elsewhere--who are at the forefront of medical marijuana practice. Their stories provide unique insights into a social, political and medical revolution.
