Most Downloaded Lung Cancer Articles - Elsevier

Cancer is a very complex disease and research geared towards learning more about its origin, progression, and treatments. Medical researches use animals to study cancer for a variety of reasons. Animals have shorter lifespans and more rapid generation times compared to humans, and disease progression moves forward at a more rapid pace, so results of studies using animals as models are obtained quicker³.

Cancer Research Paper - 5060 Words - StudyMode

Finding research papers Many people with cancer look for information about treatments for themselves. Many people use the internet to try to find out about new treatments. But it is important to understand that a single research paper won't give you the whole picture about research.
