No trabajos para el dinero, deja que el dinero trabaje para ti Descubre los secretos ocultos de invertir en el mercado de valores Es increíble cuánta riqueza se puede acumular invirtiendo en el mercado de valores. Sin embargo, es aún más fascinante ver que los inversores promedio pierden mucho dinero en un ciclo anual. ¿Por qué? Porque el mercado de valores es rentable solo si conoces las estrategias correctas. Este libro nació de la idea de crear un curso intensivo que podría ayudar a un principiante a evitar errores comunes y poner el pie en el mercado sin caerse. No es un secreto que los mejores inversores aplican técnicas diferentes con las que tienen dificultades. El objetivo del libro es difundir la información correcta y dar una visión general adecuada de lo que funciona y lo que no funciona al invertir en el mercado de valores. Durante el curso de este libro, aprenderás: Qué es el mercado de valores y por qué es una mina de oro para aquellos que saben qué hacer Un diccionario simplificado con los términos más importantes. 7 Normas que debe cumplir una acción para representar una buena oportunidad (muy importante) El poder del apalancamiento y cómo puede ayudar a los inversores con un capital pequeño La diferencia entre análisis fundamental y análisis técnico 10 errores comunes cometidos por principiantes y cómo evitarlos La forma correcta de diversificar una cartera y por qué es importante (no lo que piensas) Como puedes ver, hay mucho de qué hablar. No te preocupes, todo se explicará con términos simples y una estructura fácil de seguir. Es importante tener en cuenta que el libro no ofrece "hacerte rico con soluciones rápidas".El dinero fácil no existe, especialmente en las primeras etapas. Sin embargo, al estudiar el material proporcionado y aplicarlo diligentemente, es posible comenzar con éxito en cuestión de semanas. ¿Estás listo para comenzar tu viaje en el mundo de las inversiones

Mucho se ha escrito sobre trading, innumerables libros enfocados en operativas, análisis, estrategias, incluso en tratar de diagramar paso a paso esta actividad. En este caso, busco trascender de lo técnico o esperanzador y me enfoco en estimular el proceso reflexivo que permite configurar una percepción del trading propia. A través de diversos elementos, enfoques o concepciones busco exponer los principales escenarios en los cuales contextualizamos el trading, las limitaciones particulares que más se repiten, acciones orientadas a superar circunstancias complejas, para luego plantear una concepción factible y exitosa con la cual he logrado desarrollar resultados rentables desde hace mas de 3 años.
