For medical technology innovators, pricing a new solution can seem even more challenging. This is due to a number of factors not present in other markets. One key factor in MedTech is the role and influence of numerous stakeholders involved in access and utilization decisions (physicians, providers, insurers, value analysis committees, health technology assessment groups, GPOs, government regulators, etc.).

Segmentation is the ' backbone ' of pricing strategy, so without clearly defined customer groups the medical products company was struggling with its strategy. Pricing Solutions started with the data. Through analysis of transactional data from the past year, trends in customer demographics and buying behaviour were identified. These trends created key segments. When combined with further Breakeven and Price Dispersion Analyses, Pricing Solutions defined optimal price points per segment ...
