Published for ages 8-12, Mark Teagues Doom Machine novel is a Science Fiction outer-space story for all ages. I just loved this old-fashioned retro 1950s small town America story filled with humor, adventure, and science, accompanied with great black and white illustrations drawn by the author himself.

The Doom Machine by Scholastic, Mark Teague, Hardcover ...

What is unsurprising, considering his picture books, is that Mark Teague would write something funny. *The Doom Machine* is set in a small town called Vern Hollow in 1956, and its hero is a boy who can fix just about anything, though he's prone to getting in trouble. Of course, Jack wouldn't have to spend so much time fixing cars for his Uncle Bud if the man weren't playing mad scientist in his garage laboratory.

People's Choice For taking me out of my world in 2019, this award goes to "The Doom Machine" by Mark Teague. A cast of oddball characters witnesses an alien invasion in 1950s Upstate New York. There's a boy who can fix any engine (including a flying saucer's), and a girl who can throw a baseball with deadly accuracy.

When a group of aliens come to his town to steal his uncle's time-traveling machine and end up taking him with them as well, Jack must devise a way to outwit the creatures before they put the machine to use against Earth and destroy all those he knows and loves.
